# **P**rogress Made

- Confer the document written thus far:

<http://www.danielsorogon.com/Webmaster/Research/Progress/Reports/rss1103.pdf>

or the page pointing to it:

<http://www.danielsorogon.com/desc>

- Papers and Web sources that are not listed above were looked at during the process of writing, but mostly after it. Attention was shifted to reading since the writing process was halted temporarily on Thursday. The next section explains why.
- Miscellaneous software issue resolved: virtual drives mapped, Matlab made available, Linux account initialised, etc.

# **N**ext Stage

- Feedback needs to be given on the document. It is not very clear which direction is most worthy of expansion and it is too lengthy as a whole already<sup>1</sup>.
- Form 2 needs to be processed.

<http://www.danielsorogon.com/Webmaster/Research/Progress/Reports/form2-2.doc>

- It has been suggested that within a few week I should look at some Matlab code and attempt to understand it.
